EXPERIENCE

{PAXICO} Paxico Technologies
Software Engineer (2020-Actual)

I started working for Paxico on January 2, 2020, in an educational system in which we implemented a monorepo with different services on the backend and with React on the front end, we implemented Domain Driven Design as a design pattern, then continuing with an ott application for streaming video using Youi.tv framework and React Native.

Achievements

- Implementation of DDD on Monorepo
- Functional Front-end Design on React
- Added C++ Modules to Youi Framework

PROFESIONAL STATEMENT

I consider myself as a good analyst, infrastructure architect and web developer, with a high capacity for analysis and conceptual skills, firm in decisions and kind leader.

Methodical in my way of leading teams, flexible, of strong opinions on software development philosophies, creative, imaginative, driven by goals and achievements.

AREAS OF EXPERTISE

- Team Leadership and Lead development
- Web Solutions Consultant
- Web Development
- Database Administration
- User Interface / User Experience

SOFT SKILLS

- Analysis capacity
- Abstract thinking
- Creative and innovative personality
- Overall field knowledge
- Goal driving leadership

HARD SKILLS

- Linux Systems Administration
 - Nginx > 90%
 - Docker > 90%
 - Kubernetes > 80%
- Backend Languages
 - PHP > 90%
 - Node Js > 80%

- Frontend Frameworks
 - Vue.Js > 80%
 - React > 80%
 - JQuery > 90%
- UI Design
 - Photoshop > 80%
 - Illustrator > 80%
 - Sketch > 80%
 - Adobe XD > 70%

G-Global Agencia Aduanal
Principal Solutions Architect (2016-2019)

My main role was to direct the development team towards the objectives of the company, in mobile solutions, web as well as in integrations of legacy systems to coordinate integrations with SAP 4 / Hana.

Develop and implement release strategies with DevOps and architecture as a code with Ansible.

Scrum / Agile implementation and follow-up on monday.com.

On the administrative matter, my main objective was to complete the quarterly periods that the company required us to deliver with satisfactory indicators.

Achievements

- PHP Framework Development for main platform
- Software Design for Mobile Apps
- Software Design for Electron Web Apps
- Cross-Platforms Chat Service
- Redis / Mongo Cache Service for Sessions and Web Cache
- Jenkins Pipeline for Git Releases and Docker Deployment
- Docker Containerized Services
- SAP / 4HANA Integrations on SD / MM / FI
- EDI / AS2 Implementation 9XX Document Transmissions
- Use Case Design with Project Owners
- 100% Burned Down Sprints in 3 Years. (405sp/Sprint)

IP Media River
Lead Software Engineer, UI/UX Designer, Manager (2012-2015)

As Lead Developer, I was in charge of a team of 3 people, a graphic interface designer and two back end developers. We work with several clients from various fields, eCommerce, Web Apps, Online Catalogs, Internet Pages, Technical Support among others.

As General Manager, my goal was to bring new business to the company. Writing quotes, deployment estimates, project scopes, use cases.

I was in charge of collection and creating successful customer-supplier relationships.

Managing the team and implementing methodologies that will help us lead more effective project management.

Achievements

- G-Global's First version of their PHP / MySQL Platform
- Laboratorios Grisi Projects (grisi.com)
- HGH Suppliers eCommerce Website
- Implementation of Vue.js In our projects
- Leading as creative director for all of our clients business websites
- Lifting Sales in 200% over the last 2 years as General Manager
